

PEBC NEWSLETTER - OCTOBER 2018

OPENING DAY

Went well. It was rather a bleak day and introductions of Board, invited guests and new members was held in the clubroom. Rebekha Sharkie MP who supported our applications for two Grants over the previous year was invited to say a few words, and surprised us with the research she had done into the history and activities of the club. She spoke of the value of sporting clubs in keeping people connected. Mayor Parkes in declaring the summer season open referred to PEBC's proactive role in encouraging local people to be active and interactive with social programs drawing visitors to Port Elliot bringing financial gain to the local community. Our third v.i.p was our Patron, Philip Dodd, who has had a long association with the club through family, and playing Nightowls, and continues to support the club through sponsorship. Phil presented the token prize to the winners of the fun game of bowls. Speeches were followed by a fun game of bowls, and a super afternoon tea. And...the season was underway....with gusto! Two big tournaments in the first week!

COME & TRY

28 September was run in conjunction with local council's 'Flourishing the Fleurieu festival'. Fifteen people came along and showed positive interest in playing bowls. A couple had played previously. Most had never held a bowl. Six people put their names on the Thursday social game list, and three or four are on a waiting list for Night Owls. Others have asked for further coaching. Thank you helpers!

PENNANTS

A number of team trials have been programmed by both Thursday and Saturday selectors. It seems that just about everyone is now returned from holiday and teams should be settled this week. If we all remember the 'whispered' secret mantra, "F&C" i.e. focus and concentration, then we are bound to have good results.

ABOVE ALL ELSE – ENJOY!!
